What is the icon 100kW 215kWh battery storage system?

The iCON 100kW 215kWh Battery Storage System is a fully integrated, on or off grid battery solution that has liquid cooled battery storage (215kWh), inverter (100kW), temperature control and fire safety system all housed within a single outdoor rated IP55 cabinet.

Does GoodWe offer a battery inverter?

GoodWe, a world-leading inverter manufacturer and energy storage solutions provider, has expanded its C&I energy storage solutions portfolio with two new additions: the ETC 100kW hybrid inverter and the BTC 100kW retrofit battery inverter, both of which can be coupled with GoodWe high-voltage battery system Lynx C (101kWh - 156kWh).

How many Lynx C batteries can a 100kW inverter run?

Each 100kW ETC Series inverter can be paired with up to 6 Lynx C batteries, allowing for a 100kW/936kWh energy storage system to meet various C&I scenarios. Meeting the needs of smaller systems, the ETC 50kW inverter can be combined with three Lynx C towers to form a 50kW/468kWh energy storage solution.

Why should you use energy storage inverters?

By utilizing the energy storage system during periods of high energy demand, the inverters can help reduce peak demand charges and lower overall energy costs for customers.

What is an ETC/BTC 100kW inverter?

With a wide battery voltage range and a modular design, the ETC/BTC 100kW inverters provide great flexibility and easy installation, making them a popular choice for C&I customers. ETC/BTC inverters can switch to the backup mode in less than 10ms, ensuring an uninterruptible power supply for critical loads.

Is GoodWe a top 3 hybrid inverter supplier?

GoodWe has more than 4,600 employees situated in over 20 different countries and was regarded as the Global Top 3 hybrid inverter supplier by Wood Mackenzie in 2021. The company has an accumulative delivery of more than four million inverters and installation of 52 GW in more than 100 countries and regions.
