

Average residential ESS price per 300MW in Bangladesh

What are the business electricity rates in Bangladesh?

Business electricity rates in Bangladesh are 63.31% of the world average price and 88.74% of the average in Asia. Household rates are 62.53% of the business rates. Electricity prices paid by small businesses in Bangladesh are 100.48% of the prices paid by big businesses.

How will price increases affect the economy in Bangladesh?

The price increases, aimed at reducing government subsidies in these sectors, will take effect retrospectively from Feb. 1. Bangladesh subsidizes both natural gas and electricity sales as prices for downstream sectors are regulated, saddling the state exchequer with millions of dollars in debt every year.

How many gas consumers are in Bangladesh?

Bangladesh has eight categories of gas consumers, of which 37% is used in power generation, 23% in industries, 18% in captive power, 10% in household use, 7% in fertilizer production, 4% in CNG and 1% in commercial and tea industry.

How much does Taka electricity cost?

With the latest power tariff hike, the new average retail price has increased to Taka 8.95/unit from Taka 8.25/unit and the new average bulk electricity price has increased to Taka 7.04/unit from Taka 6.70/unit.

Why did MPEMR appoint a tariff hike in Bangladesh?

The MPEMR clarified its position separately saying the power and gas tariff hikes were implemented under the Bangladesh Energy Regulatory Commission (BERC) Act, 2003 in the public interest to ensure uninterrupted electricity supply and that consumers will be able to tolerate the hikes.

Why did Bangladesh raise natural gas tariffs?

Bangladesh has raised domestic natural gas tariffs for power plants and electricity tariffs for all types of consumers this week, in a move that is likely to incentivize gas sales and LNG imports in the coming months. The price increases, aimed at reducing government subsidies in these sectors, will take effect retrospectively from Feb. 1.
