

Average standalone energy storage price per 1GW in Sweden

Are stationary solar batteries gaining momentum in Sweden?

Installations of stationary domestic solar batteries are gaining momentum across Sweden. But there are major regional differences. In the first three quarters, 24,000 homeowners received a tax reduction ('green deduction') for installing a battery, compared to 14,000 in the whole of last year.

How do infra funds help wind and solar projects in Sweden?

Infra funds like GreenVoltis play a key role in providing structured financing to improve project bankability and long-term profitability. An increasing number of wind and solar developers in Sweden are expanding into BESS project development, but grid constraints remain a significant hurdle. Limited grid connection capacity is slowing deployment.

How much tax deductions are made in Sweden in 2022?
