

Business energy storage project financing options in Portugal 2026

How many energy storage projects will Portugal support in 2025?

Portugal's Ministry of Energy has allocated EUR100 million to support 43 energy storage projects, scheduled for completion by the end of 2025. These projects were selected from 79 applications under the country's Recovery and Resilience Plan (RRP), with eligible projects able to receive up to EUR30 million in funding.

Does Portugal support battery energy storage projects?

Portugal has awarded grant support to around 500 MW of battery energy storage system (BESS) projects, using EU Recovery and Resilience Plan (RRP) funding, a bloc-wide scheme that has supported energy storage across the continent.

How can Portugal achieve 80% renewable electricity by 2026 & 85% by 2030?

This initiative supports Portugal's goal of 80% renewable electricity by 2026 and 85% by 2030. In 2024, renewable energy contributed 71% to Portugal's electricity, marking a record 36.7 TWh. The energy storage projects will help stabilize the electricity grid and contribute to a greener, more sustainable energy transition.

What does Portugal's energy storage tender mean for the energy transition?

Portugal's government has announced the outcome of an energy storage tender that will see the installation of 500 MW of energy storage capacity to support the country's energy transition. Energy storage battery. Photo by Anna Vasileva

How does Portugal's high share of intermittent renewables affect grid stability?

Portugal's high share of intermittent renewables poses challenges for grid stability. Balancing supply and demand, especially during peak generation periods, requires advanced grid management and energy storage solutions. The event will provide companies and industry leaders with the following opportunities:

Will energy storage projects help stabilize the electricity grid?

The energy storage projects will help stabilize the electricity grid and contribute to a greener, more sustainable energy transition. Portugal's Ministry of Energy has allocated EUR100 million to support 43 energy storage projects, scheduled for completion by the end of 2025.

Battery Energy Storage Revenue Streams The varying uses of storage, along with differences in regional energy markets and regulations, create a range of revenue streams for battery energy ...

The successful projects will together add at least 500 MW of energy storage to the public electricity grid. The call for proposals, which is part of the country's Recovery and Resilience Plan (RRP), was launched last summer.

Business energy storage project financing options in Portugal 2026
