What is the China energy storage Alliance?

Subscribe to our newsletter The China Energy Storage Alliance is a non-profit industry association dedicated to promoting energy storage technology in China.

Why is China a leader in energy storage technology?

Li added that China's dominance in energy storage technology, particularly in battery cell production, places it in a leading position to shape global storage standards. At the end of the first half, power storage capacity in China surpassed 100 GW, reaching 103.3 GW, a 47 percent year-on-year increase.

How big is China's energy storage capacity?

At the end of the first half, power storage capacity in China surpassed 100 GW, reaching 103.3 GW, a 47 percent year-on-year increase. New energy storage systems now account for nearly 50 percent of the total, with lithium battery storage maintaining a dominant position in this sector, said Li.

How big will energy storage batteries be in China in 2024?

Figure 3: Ranking of Global Market Shipment Volume of Energy Storage Batteries by Chinese Companies in 2024, Units: GWh CNESA predicts that in 2025, new energy storage additions will be between 40.8 GW and 51.9 GW, averaging around 45 GW.

How much energy storage capacity has China added in 2022?

China has added 21.5 GW of storage capacity so far this year, which is three times the amount added during the same period in 2022, accounting for 47 percent of the global increase, it said. China's momentum in energy storage reflects a blend of strategic policy support, technological innovation and strong industry partnerships, said Li.

Why is China a leader in battery storage?

This growth, driven by China's swift expansion in battery storage and other energy solutions, cements its role as a leader in the sector, said Li Chenfei, senior manager of CNESA.

The inaugural Sodium-Ion Battery Industry Chain and Standards Development Forum, jointly organized by the China Electronics Standardization Institute and the China ...

The China New Energy Storage Development Report 2025 represents a major milestone in the institutionalization of NES planning and governance in China. By quantifying ...

1. Market Size As of the end of March 2020 (2020.Q1), global operational energy storage project capacity (including physical, electrochemical, and molten salt thermal energy storage) totaled ...

# China energy storage alliance

1. Market Size As of the end of March 2020 (2020.Q1), global operational energy storage project capacity (including physical, electrochemical, and molten salt thermal energy ...

The 13th Energy Storage International Conference and Expo (ESIE 2025), jointly organized by the China Energy Storage Alliance (CNESA), China Energy Research Society, and Institute of Engineering ...

The China Energy Storage Alliance (CNESA) is China's leading energy storage industry association. We are a member-based nonprofit headquartered in Beijing, China. Founded in 2010, CNESA now serves ...

The global new energy storage market has also been expanding rapidly in recent years, with a 99.6 percent year-on-year growth and 91.3 GW in cumulative installed ...

China now holds a commanding 38 percent share of the global energy storage market, fueled by a surge in new capacity and groundbreaking technological advancements, said the China Energy ...

The same day, the "Compressed Air Energy Storage 105 MW 2-Pole High-Speed Motor" successfully passed a product appraisal organized by the China Machinery Industry Federation. The press ...

As of June 2025, the China Energy Storage Alliance (CNESA) reports that China has amassed approximately 164 GW of total installed energy storage capacity. This includes over 100 GW of new ...

On April 14, 2025 (local time), Chen Haisheng, Chairman of the China Energy Storage Alliance (CNESA), led a delegation of member companies, including Sungrow, Sunwoda, and ...

On August 19-20, 2025, the 10th Western China Energy Storage Forum was successfully held in Hohhot, Inner Mongolia. The forum was hosted by the China Energy Research Society, China ...

The China New Energy Storage Development Report 2025 represents a major milestone in the institutionalization of NES planning and governance in China. By quantifying progress and clarifying national ...

China Energy Storage Alliance The China Energy Storage Alliance is China's first and only non-profit, member-based energy storage association. With the goal of promoting healthy growth in renewable energy through the use of ...

The China Energy Storage Alliance (CNESA) recently released its 2024 rankings, highlighting the leading companies in China's energy storage sector. Based on shipment volumes and installed ...

Chen Haisheng, Chairman of the China Energy Storage Alliance and Director/Researcher at the Institute of Engineering Thermophysics, Chinese Academy of ...

# China energy storage alliance

2025 China Energy Storage CEO Summit I. Background Against the backdrop of the accelerating global energy transition, the energy storage industry has become a core driver ...

Global Energy Storage Market Tracking Report is a quarterly publication of market data and dynamic information written by the research department of China Energy Storage Alliance (CNESA).

Developed in 2012 by the nation's leading energy storage industry organization, the China Energy Storage Alliance (CNESA), the 13th Energy Storage International Conference and Expo (ESIE) in 2025 is the ...

The China Energy Storage Alliance is the first and only energy storage industry association in China. It is a nonprofit member-based organization that was founded in 2012 as ...

On April 10, 2025, the 13th Energy Storage International Conference and Expo (ESIE 2025), jointly hosted by the China Energy Research Society, the China Energy Storage Alliance ...

"The government has made clear commitments to renewable energy and carbon neutrality, setting ambitious targets that accelerate demand for advanced storage solutions.

Chen Haisheng, Chairman of the China Energy Storage Alliance: When judging the progress of an industry, we must take a rational view that considers the overall situation, ...

Energy storage for a green future | CNESA is China's first and biggest NGO focusing on energy storage development. Until 2024, we have over 800 members covering full chain incl. ...
