

# Convertible bonds for power storage concept

What is a convertible bond?

Convertible bonds are a flexible financing option for companies. A convertible bond offers investors a type of hybrid security, which has features of a bond such as interest payments while also providing the opportunity of owning the stock. This bond's conversion ratio determines how many shares of stock you can get from converting one bond.

Are convertible bonds a good investment?

For investors, convertible bonds function similarly to regular bonds with periodic interest payments but add the flexibility to convert to equity, offering potential upside from stock performance without mandatory conversion. Convertible bonds are a flexible financing option for companies.

How much does a convertible bond cost per share?

For example, if a convertible bond with a face value of \$1,000 has a conversion ratio of 20, the conversion price would be \$50 per share (\$1,000 divided by 20). This means that for each bond they hold, the bondholder has the right to convert it into 20 shares of the company's stock at a price of \$50 per share.

Why do companies issue convertible bonds?

Issuing convertible bonds can reduce negative investor sentiment related to issuing new shares. Each time a company issues additional shares or equity, it adds to the number of shares outstanding and dilutes existing investor ownership. The company might issue convertible bonds to avoid negative sentiment.

Do convertible bonds pay interest?

Interest Payments: As a debt instrument, convertible bonds pay regular interest to bondholders. These coupon payments may have a lower interest rate compared to that of non-convertible bonds because of the added value of the conversion option.

What is convertible bond arbitrage?

Convertible bond arbitrage is a trading strategy that aims to capitalize on mispricing between a convertible bond and its underlying stock. A vanilla convertible bond provides the investor with the choice to hold the bond until maturity or convert it to stock.
