

Domestic energy storage project financing options in Argentina 2026

Can battery energy storage modernize Argentina's grid?

Argentina's ambitious push toward grid modernization through battery energy storage has received an enthusiastic response, with CAMMESA (Compañía Administradora del Mercado Mayorista Eléctrico) confirming the submission of 27 project proposals from 15 companies under its AlmaGBA program.

Why is Argentina a good stance on energy storage?

In Argentina, the stance provides a good lesson to the European stakeholders, especially in the commercial and industrial segments of energy storage. Emerging markets can present both local and foreign players by developing tenders that are investment appropriate and clear technically and financially secured.

Will Argentina integrate new electricity storage infrastructure into urban distribution networks?

This national and international open call, part of Resolution SE 67/2025, marks Argentina's first large-scale effort to integrate new electricity storage infrastructure into urban distribution networks.

What are Rigi-approved solar projects in Argentina?

Notably, the first RIGI-approved project is YPF Luz's 305 MW solar photovoltaic park in Mendoza, with an investment of US\$211 million. Vaca Muerta, holding the world's second-largest gas reserves, represents a cornerstone of Argentina's energy strategy.

How is Argentina developing its energy sector?

Argentina's energy sector development continues to evolve, with current priorities focused on expanding natural gas infrastructure, developing LNG export facilities, modernizing the power grid, and integrating growing renewable energy capacity.

What happened to Argentina's inflation in January 2025?

Under Milei's leadership, Argentina has made significant progress in economic stabilization, with monthly inflation dropping to 2.2% in January 2025 (the lowest since July 2020) from nearly 26% in December 2023. The annual inflation rate fell to 84.5% in January 2025, dropping below 100% for the first time since January 2023.

The Policy Push: 20% Renewables by 2025 Isn't a Suggestion Argentina's Law 27,191 sets a hard deadline for 20% renewable energy integration by December 2025. But here's the rub--solar ...

Argentina's total energy consumption was 3.45 quads in 2022, lower than the 3.57 quads consumed in 2012 (Figure 1). The reduction in energy consumption was curbed by a 0.5% ...

Domestic energy storage project financing options in Argentina 2026

The Argentinean authorities plan to install the new storage capacity in critical nodes of the metropolitan area of Buenos Aires, with an estimated investment of \$500 million and an execution period of between 12 ...

As countries like Chile and Brazil move forward with their own storage plans, Argentina's tender may well serve as a turning point--demonstrating how targeted policy design can unlock commercial ...

This year's events bring together Latin America's leading investors, policymakers, developers, utilities, network operators, EPCs and more, all in one place to ...

Latin America is fast emerging as a pivotal region in the global clean energy transition. Governments across the region are investing heavily in solar, wind, and storage ...

Foreword As part of the U.S. Department of Energy's (DOE's) Energy Storage Grand Challenge (ESGC), DOE intends to synthesize and disseminate best-available energy storage data, ...

The Argentinian Ministry of Energy has launched the "AlmaGBA" Battery Energy Storage System (BESS) tender, aiming to deploy 500MW (4-hour duration, totaling 2GWh) to ...

Argentina's first energy storage tender drew 1.347 GW of bids from 15 companies proposing 27 projects, exceeding the 500 MW target and representing more than ...

The first large-scale battery energy storage tender in Argentina is catching the attention of the international community as an unequivocal step towards modernizing power infrastructure.

Overview Project finance, or financing for large capex projects whose source of repayment is cash flow generated by the project once constructed, has for decades played an important role ...
