

Domestic energy storage project financing options in Poland 2030

Can Poland co-finance electricity storage facilities?

Credit: Phonlamai Photo/Shutterstock. Poland's National Fund for Environmental Protection and Water Management (NFOSiGW) has initiated a call for applications for co-financing electricity storage facilities. The programme, funded by the country's Modernisation Fund, has a budget of more than 4bn zlotys (\$1.02bn).

What are Poland's energy storage subsidy programs?

Poland's 2024-2025 energy storage subsidy programs are a key element in the country's energy transition. With the growing demand for stable energy sources and the integration of renewables into the grid, energy storage facilities take on special importance.

How can energy storage facilities be improved in Poland?

Introduction of preferential loans for companies investing in energy storage facilities. Increasing the installed capacity of energy storage facilities by 300% by the end of 2025. Increasing the share of RES in Poland's energy mix to 35% in 2025. Reduction of CO2 emissions by 15 million tons per year.

What is Poland's energy storage program?

The program, "Electricity storage facilities and infrastructure for improving the stability of the Polish power grid," is aimed at companies planning to invest in energy storage facilities with a capacity of at least 2 MW and a minimum capacity of 4 MWh.

How much money will Poland receive from the modernization fund?

Funding for the program comes from the Modernization Fund (FM), which underscores the importance of the project for modernizing the energy system. By 2030, Poland could receive about 60 billion zlotys from the FM for energy transition goals. The call for applications runs from June 17, 2024 to June 16, 2025, or until funds are exhausted.

Will energy storage systems projects be subsidised under the National Recover & Resilience Plan?

The call for proposals of projects to be subsidised under the Energy Storage Systems scheme financed from the National Recover and Resilience Plan opened on 17 February 2025. More [#187](#);

A subsidy for thermal energy storage is available up to PLN 5,000, increasing to up to PLN 16,000 (\$4,132) for electrical energy storage systems. The capacity should be at ...
