

Energy storage power trailer installation video

How many solar panels can a RevoPower solar trailer run?

The RevoPower Solar Trailer is built with precision and detail in the USA. It can be paired with up to (6) 100W Solar Panels as well as ANY of our solar generators and expansion boxes. When combined with solar panels and a RevoPower solar generator, you'll bring the party with you!

Can I unload a solar container without a crane?

The remote controller is available as an option. Thanks to the lifting jacks, that are available separately, you can easily unload the container from the truck without the need to use the crane. See solar container - SunBOX 35A in action. Check out the video below to see the Mobile Solar Container preparation and unfolding process.

How long does it take to prepare a mobile power station?

You don't need a team of expert technicians to prepare our mobile power station. An only one trained person can do it in less than 30 minutes. Sun tracking system. In order to get the most out of your panels, containers come with an optional solar tracking system. Constant alignment with the sun is possible thanks to the set of sensors.

The solar trailer is designed for easy setup, allowing for quick and simple preparation for use. The entire unfolding process is intuitive, requiring no additional tools or specialized skills.
