

Enterprise ESS system capital expenditure estimate 2025

Will the external ESS market recover in 2025?

IDC expects that the recovery of the external ESS market will be pushed into 2025 as the strong growth in investments into computing infrastructure will start slowing down.

How will the global enterprise tech market grow in 2025?

Despite economic pressures, Forrester forecasts 5.6% growth in the global enterprise tech market. Global enterprise technology spending is set to grow by 5.6% in 2025, reaching \$4.9 trillion, as enterprises continue to prioritize investments in cybersecurity, cloud computing, generative AI, and digital transformation.

How big is software spending in 2025?

Global software spending is projected to reach \$980 billion in 2025. This marks a 14% year-over-year growth driven by increased digitization. (Gartner) Enterprise software spending accounts for 40% of total IT budgets. Businesses prioritize tools for productivity and collaboration. (IDC) Cloud-based software spending is growing 18% annually.

How much is it spending in 2025?

Worldwide IT spending is expected to total \$5.61 trillion in 2025, an increase of 9.8% from 2024, according to the latest forecast by Gartner, Inc. "While budgets for CIOs are increasing, a significant portion will merely offset price increases within their recurrent spending," said John-David Lovelock, Distinguished VP Analyst at Gartner.

How did the external OEM enterprise storage systems market perform in 2024?

The external OEM enterprise storage systems (ESS) market reported annual growth of 3.6% in the fourth quarter of 2024, completing the year at 2.5% annual growth and \$33.5 billion in spending. Despite a recovery cycle after declines in 2023 the spending for the year was just \$100 million shy from the level of spending in 2022.
