

# Expected ROI of home battery pack project in Oman 2026

Is Oman ready for a green hydrogen project?

Oman is moving forward with green hydrogen projects, with the first Final Investment Decision (FID) expected in 2026-27. Over the past two years, eight consortiums have been awarded land blocks in central and southern Oman to develop large-scale green hydrogen production.

When is the first Final Investment Decision (FID) in Oman?

Oman - The first Final Investment Decision (FID) is anticipated during the 2026-27 timeframe by one of the consortiums awarded mandates to develop green hydrogen (GH2) projects in the Sultanate of Oman.

Will Oman move from planning to execution?

Speaking at the 'Together We Progress' forum, Oman's Minister of Energy and Minerals, Eng Salim bin Nasser al Aufi, confirmed that the FID would mark the shift from planning to execution. He also stated that Oman would continue oil production and exports as long as costs remain below global market prices.

The first Final Investment Decision (FID) is anticipated during the 2026-27 timeframe by one of the consortiums awarded mandates to develop green hydrogen (GH2) ...

Oman launches tender for 500-MW Ibri III Solar PV IPP, with a submission deadline of February 19. The project is estimated to cost OMR 155 million and is expected to be operational by Q4 ...

With a total investment of RO 72 million, the project will connect Masirah Island to the national electricity transmission network through a combination of overhead transmission ...

Petroleum Development Oman (PDO) is making significant strides in renewable energy with plans for two 100 MW wind farms and a solar PV Independent Power Project (IPP) integrated with a battery energy storage ...

Oman's Energy Minister, Salim Al-Aufi, has announced that the Final Investment Decision (FID) for the first of eight planned green hydrogen projects in the sultanate is ...

These mega-projects require significant investment but hold immense potential for Oman's future. They are expected to create jobs, boost economic activity, and position Oman as a major player in the region.

Petroleum Development Oman (PDO) announced the signing of landmark agreements with OQ Alternative Energy (OQAE) and TotalEnergies to develop three pivotal Renewable Independent Power Producer (IPP) projects.
