

# Hybrid solar storage project financing options in Vietnam 2025

When is solar & storage live Vietnam 2025?

HO CHI MINH CITY, Vietnam, July 3, 2025 /PRNewswire/-- Vietnam takes a bold step forward in its clean energy transition as the country's largest renewable energy event, Solar & Storage Live Vietnam 2025, returns to Ho Chi Minh City on 9-10 July 2025 at SKY Expo Vietnam.

Does Vietnam have new feed-in tariffs for solar power?

April 2025 | Southeast Asia Impact Alliance Vietnam is taking another step toward modernizing its renewable energy sector by unveiling updated feed-in tariffs (FiTs) for solar power, with a notable emphasis on encouraging battery energy storage systems (BESS).

How much does a solar plant cost in Vietnam?

Vietnam's Ministry of Industry and Trade (MoIT) has published the new feed-in tariffs for utility-scale solar plants. For projects without battery storage, the tariff will be VND 1,382.7 (\$0.053)/kWh for the northern part of the country, VND 1,107.1/kWh for the central part, and VND 1,012.0/kWh for the southern region.

What are the new fits for solar power projects?

These updated FiTs aim to enhance grid reliability while aligning with the nation's broader energy transition strategy. The most significant development in this update is the introduction of differentiated tariffs for solar power projects that incorporate battery storage.

What are the requirements for a battery project in Vietnam?

The Vietnamese authorities also decided that battery projects under the FiT scheme must have at least 10% of a PV plant's capacity and offer at least 2 hours of storage. According to the latest statistics from the International Renewable Energy Agency (IRENA), Vietnam had approximately 18.66 GW of installed PV capacity at the end of 2024.

Are solar plants equipped with Bess eligible for higher rates?

For the first time, solar plants equipped with BESS will be eligible for higher rates to compensate for the added complexity and investment costs. Tariff levels are also region-specific, taking into account solar radiation potential in Northern, Central, and Southern Vietnam.

VEICHI at Solar & Storage Live Vietnam 2025, Sky Expo Vietnam International Convention Exhibition Center, Vietnam on 9-10 July 2025.

After debt payments have been made, other investors (like equity investors) will be paid. In general, project's assets are used as collateral to the loan. This type of financing is common in renewable energy projects because building solar, ...
