

Industrial battery cabinet supplier quotation in Cyprus 2030

Who are the key players in the industrial battery market?

The industrial battery market is fragmented. The key players in this market (in no particular order) include EnerSys, Exide Industries Limited, GS Yuasa Corporation, East Penn Manufacturing Company Inc., and Amara Raja Batteries Ltd., among others. Need More Details on Market Players and Competitors?

Will 9% of energy storage capacity be added by 2030?

We added 9% of energy storage capacity (in GW terms) by 2030 globally as a buffer. The buffer addresses uncertainties, such as markets where we lack visibility and where more ambitious policies may develop that we haven't predicted. We revised our buffer calculation methodology in this market outlook.

Why is China a major market for industrial batteries?

China is expected to be one of the largest and fastest-growing markets for industrial batteries, owing to the significant growth in its power generation, chemical, oil & gas, metals processing, telecommunication, and other sectors.

Which countries are implementing new capacity auctions for energy storage?

South Korea will hold an auction for storage to reduce renewable curtailment and published a new policy to revive its commercial storage sector. Australia and Japan are both executing new capacity auctions for clean firm capacity which benefit energy storage installation by providing long-term capacity payments.

How is the industrial battery market segmented?

The industrial battery market is segmented by technology, application, end-user, and geography. By technology, the market is segmented into lithium-ion battery, lead-acid battery, and other technologies (nickel cadmium, nickel metal hydride, zinc-carbon, etc.).

Should battery companies invest in a breakthrough battery technology?

Nevertheless, the increasing focus on technologically advanced batteries by end users and manufacturers is likely to create a massive opportunity for battery companies to invest and redirect their resources toward making a breakthrough battery technology.
