The company, BLUEGEN, specializes in micro-CHP systems that utilize fuel cell technology to extract hydrogen from natural gas, converting it into highly efficient electricity and heat.

GKN Hydrogen is dedicated to combating climate change by providing innovative and safe hydrogen storage solutions. They specialize in long-term storage systems that effectively store green hydrogen derived from ...

Established the Asia-Pacific Hydrogen Energy and Fuel Cell Basic Technology R& D Center in Taiwan. The company will build a hydrogen energy industry group company that designs, constructs and manages all ...

Detailed info and reviews on 97 top Hydrogen Storage companies and startups in 2025. Get the latest updates on their products, jobs, funding, investors, founders and more.

By bringing its hardcore matrix of star products from bipolar plates, stacks, fuel cell systems through

# Italian sino hydrogen storage technology company

hydrogen solutions for vehicles, Sinosynergy passed to the European market the intelligent manufacturing in China via ...

This article will introduce the top 10 hydrogen fuel cell manufacturers in China and their technological innovation, product application and market performance.

Hydrogen Production and Storage Sector in Italy has a total of 10 companies which include top companies like Enapter, Green Independence and STOREH.

Hybitat revolutionizes this dynamic introducing an innovative energy production and storage system based on green hydrogen. Now everyone can store and utilize energy whenever it is needed, freeing them from ...

Top companies for Hydrogen storage technology developer at VentureRadar with Innovation Scores, Core Health Signals and more. Including Ayrton Energy, Elcogen, Skeleton ...

The Solid Hydrogen Storage system is a hydrogen storage solution that uses the metal hydride technology to store large amount of hydrogen in reduced volumes and safely. The system is able to operate at low pressure and ...

China leans into cryogenic liquid hydrogen (think: space program tech), while Italy champions metal hydride storage using recycled aluminum. Meanwhile, both are flirting with ammonia as a ...

The Company was established by way of promotion and changed from Guangdong Sino-Synergy Hydrogen Energy Technology Co., Ltd. ( ) to a joint stock limited ...

Overview of Italy's strategic role Italy represents a very attractive market for the development of green hydrogen given its extensive existing renewable energy assets and country-wide gas transport network, ...

GKN Hydrogen is dedicated to combating climate change by providing innovative and safe hydrogen storage solutions. They specialize in long-term storage systems that effectively store ...

Founded in 2022, Ningbo Sino-Tech Hydrogen Membrane Technology Co., Ltd. is a high-tech enterprise specializing in the research, development and production of advanced membrane materials. Our novel products are ...

Italian startup Hybitat Srl has developed a hydrogen production and storage system for long-term storage of surplus residential and commercial solar power.

Detailed info and reviews on 6 top Hydrogen Storage companies and startups in Italy in 2025. Get the latest updates on their products, jobs, funding, investors, founders and ...

# Italian sino hydrogen storage technology company

As a leading supplier of hydrogen production and distribution equipment, McPhy contributes to the deployment of clean hydrogen throughout the world.

Sinohydro is committed to the vision of carbon neutrality and strives to lead the green hydrogen industry in technological innovation, providing green hydrogen production, hydrogen storage, and HydroSafe for the global new ...

Ningbo Sino-Tech Hydrogen Membrane Technology Co., Ltd., established in 2022, is a high-tech enterprise primarily engaged in the research and development, production, and sales of novel ...

GKN Hydrogen is dedicated to combating climate change by providing clean energy solutions, specifically through the development of reliable and safe hydrogen storage systems.

Energy Digital takes a look at the top 10 companies making waves in the industry as we continue to see growth in hydrogen demand and generation

Forty years of experience, combined with three plants in Italy and China, as well as the development office AVERIS GmbH in Germany, enables it to serve customers in strategic growth sectors.
