

Lithium-ion energy storage latest news

Global demand for energy storage is surging. Lithium-ion leads today, but new contenders like sodium-ion, flow, and gravity systems are shaping the future grid.

China's new energy storage market reached a milestone in the first half of 2025, according to a report by CNESA at the Western Energy Storage Forum in Hohhot, Inner ...

Find a wealth of information on the energy storage and battery industries with BEST Magazine. From all the latest news to in-depth technical articles, we have everything you need ...

Read the latest news and expert articles on Lithium-Ion Batteries, brought to you by the editors of The Battery Magazine - The Battery Magazine

Lithium-ion batteries have become the leading energy storage solution, powering applications from consumer electronics to electric vehicles and grid storage. This review ...

BatteriesDaily delivers comprehensive updates and analytical perspectives on the latest developments in the field of Li-ion Batteries, tailored to assist in informing strategic decisions ...

Chinese lithium prices are rising due to growing confidence in demand for large-scale battery storage, driven by policy support in China and increasing global momentum for energy storage systems ...
