

MW scale storage system tender price in Mauritius 2026

Why is battery energy storage system being introduced in Mauritius?

The CEB is introducing a Battery Energy Storage System (BESS) on its network to arrest the fluctuation inherent to Variable Renewable Energy (VRE) systems. This is due to the increasing share of VRE in Mauritius' energy mix, as the country's energy transition to a low carbon economy gains momentum.

What is Mauritius tenders?

MauritiusTenders is the most authentic and comprehensive database of Mauritius Tenders, RFPs, Bids and eProcurement Notices. The information on eTenders, EOI, GPN and other public and private tenders from various industry sectors in Mauritius is sourced from newspapers, government public procurement portals and individual purchasers websites.

How will Mauritius transition to a low carbon economy?

Mauritius is transitioning to a low carbon economy, with the Central Electricity Board (CEB) installing the first grid-scale Battery Energy Storage System (BESS). This is the first of its kind in Mauritius and enables high capacity storage of renewable energy in the grid.

Where can I find information on etenders in Mauritius?

The information on eTenders,EOI,GPN and other public and private tenders from various industry sectors in Mauritius is sourced from newspapers,government public procurement portals and individual purchasers websites. Fresh and verified Tenders from Mauritius.

What is Mauritius' long term energy strategy?

The Government of Mauritius' Long Term Energy Strategy 2009-2025 aims to increase the share of renewable energy in our energy mix to 35% by 2025. This includes reducing the country's dependence on coal and heavy oil for electricity generation.
