

# Ndrc promotes the development of new energy storage

What is the implementation plan for the development of new energy storage?

In January 2022, the National Development and Reform Commission and the National Energy Administration jointly issued the Implementation Plan for the Development of New Energy Storage during the 14th Five-Year Plan Period, emphasizing the fundamental role of new energy storage technologies in a new power system.

What are the main goals of new energy storage development?

The main goals of new energy storage development include: Full market development by 2030. The guidance covers four aspects: 1) Strengthening planning guidance to encourage the diversification of energy storage; 2) Promoting technological progress to expand the energy storage industry system;

What is the new energy storage action plan?

The new action plan, grounded in the nation's dual carbon goals, aims to grow the national new energy storage fleet to 180 GW by 2027. It responds to the urgent need for flexible energy regulation amid rapid renewable energy expansion.

What is the scope of energy storage in the PRC?

" , " People's Government of the PRC, 3 Jan 2023, at <https://> The scope includes two categories: dispatch-controlled new type energy storage and self-used new type energy storage by power stations.

Why is investor participation important in the energy storage industry?

Investor participation is beneficial for the development of the energy storage industry. Facing trends, they should keep a cool head in assessing business models to identify high-quality segments and targets.

What are the application scenarios for energy storage systems?

There is an extensive range of application scenarios for industrial and commercial energy storage systems, including industrial parks, data centers, communication base stations, government buildings, shopping malls and hospitals.

This document identifies energy storage as a key element of the decarbonisation of the sector and support energy security. It promotes the high-quality and large-scale development of new ...

The Chinese government has actively introduced various policies and standards to promote the development of the Chinese NEV industry effectively (Tian et al., 2024a). These ...

We will increase support for projects concerning energy conservation and environment protection, new energy, low-carbon transportation modes and equipment, and ...

## **Ndrc promotes the development of new energy storage**

China has released an implementation guideline on strengthening the integration of new energy vehicles (NEVs) with the power grid, according to the National Development and ...

China aims to add more than 100 GW of new energy storage (primarily battery storage, excluding pumped hydro) by 2027, according to a new action plan presented by authorities on Friday.

China's top economic and energy regulators have jointly released a sweeping policy directive to initiate the large-scale construction of "zero-carbon industrial parks," marking a significant acceleration in the ...

The products will further support interaction with the grid while integrating energy storage and charging, so as to help minimize the impact of overcharging on the grid as much as possible, it said.

On 15 July, national plans for energy storage were set out by the Chinese National Development and Reform Commission and National Energy Administration. The main ...

On February 9, China's National Development and Reform Commission (NDRC) and National Energy Agency (NEA) jointly published the Notice on Deepening Market-Based ...

Reflecting on the evolution of energy development in China, we can identify significant milestones that shape its future. As we enter 2025, the National Development and ...

MIIT released, together with the National Development and Reform Commission (NDRC), the Guidelines for Information Industry Development to promote the formation of an internationally ...

In August 2024, the National Development and Reform Commission (NDRC), National Energy Administration (NEA), and National Data Administration (NDA) jointly released ...

That's where China's National Development and Reform Commission (NDRC) steps in with game-changing new energy storage policies announced this March. These regulations aren't just ...

We must keep national energy security and economic development as the bottom line, strive for time to realize the gradual replacement of new energy, and promote the ...

The notice clearly stipulates the cancellation of the mandatory energy storage policy for new energy projects, marking the exit of the administrative energy storage ...

The State Council released a circular on the implementation plan to promote the high-quality development of new energy in the new era, drawn up by the National Development ...

?SMM Analysis?On February 9, 2025, the National Development and Reform Commission (NDRC) and the

## **Ndrc promotes the development of new energy storage**

National Energy Administration jointly issued the &quot;Notice on ...

The National Development and Reform Commission (NDRC) and the National Energy Administration (NEA) have issued a notice on promoting the integration of new energy sources like wind power and solar ...

On February 9, 2025, China's National Development and Reform Commission (NDRC) and the National Energy Administration (NEA) jointly issued the Notice on Deepening ...

In the context of the "dual-carbon" goal and energy transition, the energy storage industry's leapfrog development is the general trend and demand. The follow-up actions will inevitably introduce a series of policies ...

On Monday, eight ministries - led by the industry regulator (MIIT) and macro planner (NDRC) - issued an action plan to promote the manufacturing of new-type energy ...

[SMM Analysis] On February 9, 2025, the National Development and Reform Commission (NDRC) and the National Energy Administration jointly issued the &quot;Notice on ...

In February 2025, the National Development and Reform Commission (NDRC) and the Energy Administration jointly issued Document 136, which acted like a powerful bomb, ...

On February 9, 2025, China's National Development and Reform Commission (NDRC) and National Energy Administration (NEA) jointly issued the Notice on Deepening the Market ...

Local governments have also introduced a series of policies to promote the construction of new type energy storage in conjunction with new energy power generation.

For example, the Inner Mongolia Energy Bureau issued the &quot;Notice on Accelerating the Construction of New Types of Energy Storage,&quot; which provides compensation ...

Zhang Zhihua, deputy director of the NDRC's Department of Innovation and High-Tech Development, said he is optimistic about the investment in new infrastructure construction in ...
