

PV energy storage supplier quotation in New Zealand 2026

Does the Electricity Authority support solar PV & energy storage?

Both solar PV and energy storage have seen increasing support from the Electricity Authority. Indeed, the organisation is actively looking to improve regulations to support more investment in energy storage and new generation, including residential solar PV, to enhance the security of supply.

Should Australia invest in rooftop solar PV?

While Australia's enthusiastic adoption of rooftop PV is an outlier, these figures demonstrate how there remains a lot of room for increased investment in rooftop solar PV to enable it to play a bigger role in the energy supply. Both solar PV and energy storage have seen increasing support from the Electricity Authority.

Will more investment be needed to stabilise New Zealand's electricity system?

Sarah Gillies tells PV Tech Premium that greater investment will be needed to stabilise the New Zealand electricity system, as the next two years will 'continue to be challenging'. Image: Far North Solar Farm.
