What is the energy storage global conference 2022?

Following the success of last year's hybrid event, despite the complex context of the health crisis, the conference gathered more than 350 participants and over 100 speakers from 37 countries worldwide; this year, the Energy Storage Global Conference 2022 will attract over 500 top-level energy storage professionals and policymakers.

What is the Energy Storage Summit 2026?

Building upon the success of previous years, our Summit offers a unique platform for professionals to connect, collaborate, and drive innovation. Join us in 2026 to be part of the premier event driving the future of energy storage in Asia, where innovation meets opportunity and industry leaders converge to shape the growth of the sector.

Why did Energy Storage Summit Asia move from Singapore to Manila?

Returning for its third edition in 2025, the Energy Storage Summit Asia relocated from Singapore to Manila, in the Philippines. This shift reflects the country's emergence as a leader in energy storage deployment following the inaugural Green Energy Auction 4- the first auction to integrate Renewable Energy and Energy Storage Systems (IRESS).

Can companies recover investment in DC energy storage?

Chang Jae Won of the Korea Smart Grid Association believes companies lack a model for recovering their investment in DC energy storage. The Philippines has commissioned the Batangas 1 project, the country's first to combine agriPV with a battery energy storage system (BESS).
