

Successful bid price of BESS project in Nepal 2025

How will NVVN benefit from a Bess project?

The BESS will be established with a viability gap funding (VGF) with a greenshoe option of an additional capacity of up to 250 MW/1,000 MWh. The project will provide NVVN with energy on an on-demand basis, as required during the peak and off-peak hours. Bids must be submitted by March 24, 2025. Bids will be opened on March 25.

What is the minimum bid size for a greenshoe project?

The minimum bid size is 200 MWh (50 MW x 4 hours) and the maximum 500 MWh (125 MW X 4 hours). NVVN may allocate and tie up additional capacity up to 250 MW/1,000 MWh under the greenshoe option. Projects that have already been commissioned will not be considered under this tender.

How many mw can a Bess provide?

The BESS must be designed to provide a maximum of four hours of discharge capacity, with the minimum bid size set at 200 MWh (50 MW x 4 hours) and the maximum at 500 MWh (125 MW x 4 hours). Under the greenshoe option, NVVN may allocate and tie up additional capacity of up to 250 MW/1,000 MWh.

What is the NVVN tender for a Bess system?

The NVVN tender also specified that the project capacity is to be quoted in multiples of 5. The BESS system shall be rated for 2 hours of charging and 2 hours of discharging in one cycle.

What are the requirements for a Bess project?

The total 1,000 MWh (250 MW X 4 hours) BESS capacity must be distributed and connected to ISTS substations anywhere in India. Successful bidders must also operate and maintain the project, guaranteeing a minimum monthly system availability of 95%.

How much does Bess cost?

The cost of BESS has fallen significantly over the past decade, with more precipitous drops in recent years: This is nearly a 70% reduction in three years, owing to falling battery pack prices (now as low as \$60-70/kWh in China), increased deployment, and improved efficiency.

NHPC Invites Bids for 500MW/1000 MWh BESS Projects in Andhra Pradesh NHPC Ltd. invites bids for 500 MW/1000 MWh BESS projects in Andhra Pradesh under the VGF-supported TBCB model. The projects aim to ...

How much does it cost to build a battery in 2024? Modo Energy's industry survey reveals key Capex, O& M, and connection cost benchmarks for BESS projects.
