

Successful bid price of ESS container project in Greece 2026

Can ESS project operators participate in an auction?

In order to be eligible to participate in an auction, ESS project operators should not have begun their construction prior to the submission of their offers, while for participants in the first auction, it is also stipulated that they must be endowed with a valid energy storage license.

When can I submit a bid for a battery energy storage system?

Interested parties can submit bids by December 23. Awarded projects will be announced in February 2025 and need to be connected to the grid by April 2026. The Greek Regulatory Authority for Energy, Waste, and Water (RAAEY) has launched the country's third auction for standalone, grid-scale, front-of-the-meter battery energy storage systems.

What is the storage capacity requirement for ESS projects?

Exceptionally, in the context of the third auction and for ESS projects with a maximum total capacity of 50 MW, this storage capacity requirement is limited to 250 MWh, provided that the storage technology used is new and durable.

Does Greece have a Bess subsidy program?

Moving forward, Greece is abandoning subsidizing BESS via auctions. Instead, the country has recently launched a new program for 4.7 GW of unsubsidized BESS which will be offered priority grid connections on a merchant basis without subsidy support. How long does it take to bid for a waste & energy auction?

Each auction shall be conducted by the Regulatory Authority for Waste, Energy and Water (" RAWEW ") - known until recently as Regulatory Authority for Energy (RAE) - and the tenderers' offers shall be submitted between 21 and 28 days from the date of RAWEW's invitation. The procedure to be followed is that of a single-stage bidding. 4.

How many MW can I bid for a project?

Individual projects in the auction can reach up to 100 MW, or 50 MW in case of multiple projects by a single bidder. Total capacity per bidder should not exceed 225 MW. The submitted bids in the third auction will be capped at EUR 145,000/MW per year, up from EUR 115,000/MW per year, which was the bidding cap in the second auction.

The contractor on the project will be LG Energy Solution Wroclaw. The Polish unit of the Korean battery maker won the project tender offering the price of PLN 1.555 billion (\$384 million). On Monday, LG Energy
