

## Successful bid price of enterprise ESS system project in Belgium 2030

Is ESG financing a battery energy storage system in Belgium?

Energy Solutions Group (ESG) announced today that it has completed project financing for a 75-MW/300-MWh battery energy storage system (BESS) under construction in Belgium. The Megapack battery system. Source: Tesla Inc The financing was arranged by KBC Bank and Wallonie Entrepreneurs.

How many Bess contracts have been secured this year?

On the last day of October, system operator Elia published the results of the CRM auctions held this year, showing that a total of 450 MW of BESS had secured contracts. For the first time, two auctions were held simultaneously, namely the last auction (Y-1) for the 2025-2026 delivery year and the first auction (Y-4) for the 2028-2029 delivery year.

Is Bess the most cost-competitive energy storage technology?

The selected case study showed that as long as a reliable electric grid connection was present without limiting capacity or energy purchases, BESS was the most cost-competitive energy storage technology in all sensitivity cases and a profitable investment for the 2030 scenario.

How many MW of Bess was contracted in 2025-2026?

Elia announced that the goal had been achieved for the 2025-2026 delivery year: "security of supply is guaranteed, and sufficient volume has been contracted". A total of 100 MW of BESS was contracted in this procurement exercise.

When will ESG be operational?

The site is expected to become operational by the autumn of 2025. Project partners include Spie, Yuso, Sweco and House of Projects. ESG is active in the field of solar energy, wind energy, rapid charging infrastructure and energy storage. In December, ESG wrapped up a EUR-60-million capital raise led by Alpha Renewable Energy Fund and by SFPIM.

Who financed the Bess project?

The financing was arranged by KBC Bank and Wallonie Entrepreneurs. The latter announced separately that its own contribution stands at EUR 15 million (USD 15.4m). The BESS facility is being built on an industrial site next to an Elia high-voltage substation in Harmignies, part of the municipality of Mons in the Walloon region.
