

# Successful bid price of enterprise ESS system project in Saudi Arabia 2026

How will Bess projects impact Saudi Arabia?

The successful implementation of BESS projects will significantly contribute to Saudi Arabia's goal of increasing the share of renewable energy in its power mix, targeting 50% by 2030.

How many bidders qualified for Bess?

In total, 33 bidders qualified: 21 applied to provide technologies and manage BESS facilities, and the remaining 12 applied only to manage assets. SPPC was established by the Kingdom of Saudi Arabia in 2017 as the Principal Buyer of electricity, capacity, and system services under the supervision of the country's Ministry of Energy.

Which companies are prequalified for Bess projects?

Among the companies prequalified for the BESS projects are global leaders in energy storage and power generation, alongside regional firms with a strong track record in delivering infrastructure projects.

Why is Saudi Arabia focusing on Bess?

Saudi Arabia's focus on BESS is not only a response to the country's energy needs but also a strategic move to position the kingdom as a leader in the global energy storage market.
