

Successful bid price of microgrid storage project in Ireland 2026

How much does EirGrid cost?

EirGrid and SONI published results for the latest Capacity Auction, held in January 2021 for delivery over the course of October 2024 to September 2025. The Auction Clearing Price is 47,820 EUR/MW per year or 44,185.68 €/MW per year. Successful de-rated capacity in the auction amounts to 6,168 MW.

How much does EirGrid's T-4 capacity auction cost?

EirGrid assigned 7.2 GW of capacity in its latest auction, with 5.4 GW to come from gas power plants. The auction clearing price reached EUR83.050 (\$90.554)/MW per year. Irish grid operator EirGrid has published the provisional results of its latest auction for the capacity market - the so-called T-4 Capacity Auction.

How much battery storage do we need in Ireland & Northern Ireland?

In 2021 energy experts Baringa estimated that to hit the 80 per cent renewable electricity targets in Ireland and Northern Ireland by 2030 we would need at least 1,700 MW of battery storage on the island of Ireland. Every battery storage project connected makes our electricity grid more secure and helps to integrate wind and solar power.

Does Ireland need an end-to-end energy storage strategy?

Policy evolution is needed to support the development of the energy storage sector throughout the value chain, from R&D and product development through to project delivery and operation. To support this, Ireland needs an end-to-end energy storage strategy that can support the development of the sector.
