

Successful bid price of mobile ESS unit project in Canada 2026

What happened to ESS bid prices in March 2024?

In March 2024, ESS bid prices varied depending on their storage capacity, with an overall downward trajectory evident, particularly in the case of four-hour ESS bids, which hit yet another all-time low. Raw material prices for storage battery are expected to remain stable. At the outset of 2024, battery prices experienced a decline.

How many contracts has IESO executed?

The IESO has executed contracts with 13 selected proponents, acquiring 2,194.91 MW of new capacity scheduled to come into service between 2026-2028. As part of IESO's continued commitment to transparency, individual contract prices can now be found in the results tables.

What is the price gap between ESS and batteries?

In March, the price disparity between ESS and batteries has continued to shrink. The average price of a 280Ah/0.5C storage battery hovered around 0.38 yuan/Wh in March 2024. According to our data, the average winning price for a 2-hour ESS is approximately 0.63 yuan/Wh, resulting in a price gap of around 0.25 yuan/Wh.

Where can I view and bid on tender opportunities?

Department of Public Works and Government... Department of Public Works and Government... Register your business to view and bid on tender opportunities published by Public Services and Procurement Canada. Get an overview of our policies and guidelines, procurement process, and more.
