

The state releases energy storage crude oil

When will crude oil storage capacity data be released?

Crude oil storage capacity data are also provided for Cushing, Oklahoma, an important crude oil market center. Data through 2019 were released twice each year near the end of May (data for March 31) and near the end of November (data for September 30). Beginning with 2020, only data for March will be collected and released near the end of May.

Which states have energy storage goals?

A 2021 law, An Act to Advance Energy Storage in Maine, established energy storage goals and directed steps to advance storage deployment. In 2023, Maryland's HB 910 established storage deployment targets. Massachusetts' energy storage target was established in 2018 by An Act to Advance Clean Energy and updated in 2024.

Why is Energy Storage Resource Development important?

Energy storage resource development will continue to grow across the United States as an important tool to enhance grid reliability and stability as intermittent renewable generating resources account for a larger share of generation resources.

Why did US oil stockpiles rise last week?

U.S. oil stockpiles rose across the board last week as crude imports grew and exports dipped and as gasoline and distillate demand weakened, the Energy Information Administration (EIA) said on Wednesday.

What are state energy storage procurement mandates & goals?

This table includes all existing state energy storage procurement mandates, targets, and goals. These terms describe various ways states may set an intention to attain a specified level of energy storage deployment by a specific date, and the role of regulated electric utilities in helping realize that intention.

Did crude oil stockpiles fall last week?

U.S. oil inventories fell across the board last week, the Energy Information Administration said on Wednesday, drawing down more than expected and with crude oil stockpiles hitting their lowest level in nearly 2-1/2 years. U.S. crude oil and product stockpiles were expected to have fallen last week, an extended Reuters poll showed on Tuesday.
